## **2003 Financial and Activities Statements Arkansas Chapter**

### **Activities Statement**

As Arkansas Chapter Director, I have responded to almost two dozen requests for information on both the state and national level. I have discovered information in some old Fire Atlas's for the Ozark-St. Francis National Forests. It is a Master Fire Summary chart for 1965 to 1969. It contains the following information for twenty seven standing lookouts on the forest: District / Name of Lookout / Classification (P, S, or E) / Owner / Manned By / Height / Cab Dimensions / Communication Equipment on site. Paper copies and an electronic version have been distributed to several of the other directors and interested researchers. At the present time, including myself, there are only two members in Arkansas.

### **Financial Statement**

All photocopying and mailing of information, maps, and lookout plans has been paid for out-of-pocket as a donation to the Association. I have no expectations of requesting any Association funds for the coming year.

Respectfully submitted:

*/s/ Michael A. Pfeiffer*

Michael A. Pfeiffer  
Arkansas Chapter Director
