

Forest Fire Lookout Association Answer Man Annual Report 2016

In 2016, the FFLA answerman site received over 100 questions worldwide including, Denmark, England, Sweden and Russia. The most common questions were –

- How do I become a lookout?
- Can a person from another country staff a lookout in the US?
- Can you help me rent a lookout?

The most enjoyable ones were from school kids wanting information for school reports. All questions received that were region-related were passed on to state directors or area representatives for follow-up.
