2012 Financial and Activities Statements Arkansas Chapter

Activities Statement

As Arkansas Chapter Director, I have responded to more than a dozen requests for information on both the state and national level while continuing to add data to the Arkansas Lookout Inventory. I also continue to try and find information on Oklahoma Lookout Towers. We currently have seven members in the Arkansas chapter. The City of Hamburg hosted its 4th Annual Open House for Crossroads Fire Tower on Wednesday, November 14th. I have been participating with the USDA Region 8 effort to write up a compilation of all of its Lookout Tower along with management direction. I have submitted all of the information for the Lookout Towers on the Ozark-St. Francis National Forests and was able to download onto their project area all of the electronic copies of Lookout Tower Plans that I have compiled over the years with the help of my colleges in the FLAA and the Forest Service.

Financial Statement

All photocopying and mailing of information, CDs, maps, and lookout tower and cabin plans has been paid for out-of-pocket as a donation to the Association. I have no expectations of requesting any Association funds for the coming year. The balance sheet from the Association Treasurer shows a chapter balance of \$72.80.

Respectfully submitted:

/s/ Michael A. Pfeiffer
