

## Minnesota FFLA Chapter Report for 2016

It has been a bit of a quiet year for the Minnesota Chapter.

I did read in the Fall 2016 issue of the *National Woodlands* magazine, that DNR staff with assistance from FFLA, moved a surplus DNR fire tower south to the St Paul fairgrounds to be used as a forestry interpretation site. It is now the 10<sup>th</sup> MN (US #1067) fire tower on the National Historic Lookout Register.

To date, I have not heard if there has been any further progress between Dave Quam and the Chippewa National Forest (CNF) and the CNF's 3 fire towers - please see the 2015 yearly report for details.

Respectfully submitted,  
Jan Bernu
