

Pennsylvania Chapter report for 2013

Membership -- 14 members currently assigned to the chapter.

Financial Statement -- FFLA National Treasurer Gary Weber reports that the chapter has available \$551.64 in funds.

NHLR (National Historic Lookout Register) – 15 Pennsylvania towers (14 state and one federal) are currently on the register, plus three more that have been nominated (not yet placed on the register). Several additional towers are eligible for the NHLR and I will continue to nominate these locations as time permits.

Other activities:

1) Continued research into various state towers and former lookout sites. Many sites with remains were GPS'ed; it was noted that some locations were off by as much as 200 feet from what is shown on USGS topo maps (1:24000 scale).

2) As acting director, I participated in the 2013 Eastern Conference held in Beckley, WV along with one other chapter member.

3) Began looking into the possibility of a Facebook page for the chapter, where we can post photographs and other pertinent information

Respectfully submitted:

/s/ Ron Stafford
