

# Forest Fire Lookout Association Restoration Grant Program

## 2013 RESTORATION GRANT ANNUAL REPORT

Only one Restoration Grant application was received in 2013, on the last day of the year. No emergency stabilization grant applications were received.

1) **Big Butte Lookout, Washington**

The only FFLA Restoration Grant application of 2013 was approved for \$500 for Big Butte Lookout, Pomeroy Ranger District, Umatilla NF. The grant will be used to purchase materials for repairing the L-4 cab exterior and interior (paint, lumber for repairing flooring, shutters, catwalk, railing, hardware/nails, caulking for windows, repairing or replacing (in kind) any broken windows or window frames. The L-4 cab was lowered off its crippled 82-foot tower in November; a tree had fallen across one of the tower's guy cables late in 2010, breaking a tower leg. Plans are to have the cab placed atop a tower again by the 2014 fire season. An invitation for FFLA participation in the restoration has been extended.
