

Southeastern U.S. Chapter Report
January 8, 2013

Membership: 26

Carry forward: \$138.06

Lookout related information:

-Primary activity is to develop chapters in the 14 states that do not have them. All of these states, except Alabama, now have a State FFLA Representative.

-Good progress is being made in both SC and GA. Leaders are in place, but membership minimums need to be achieved.

-Encouraged the individual state representatives to develop local FFLA chapters under their guidance. This is a proven way to develop FFLA membership.

Goals for 2013:

-Increase the number of NHLR nominations from the unorganized states, especially in the Southeastern U.S.

-Continue to encourage submissions of information and pictures of former lookouts on www.fflos.com (Former Fire Lookout Site register)

-The Southeastern U.S. Chapter will co-host the 2013 Summer Meeting of the Eastern and the Southern Regions in Beckley, WV.
