

2023 VERMONT CHAPTER ANNUAL REPORT.....

A relatively Quiet Year in the Green Mountain State. Some Progress has been made on the Replacement of the Bromley Observation Tower. Permits have been Issued, Steel has been Prefabricated, and Pinning of Corners has been Accomplished. The Original Plan was for Erection in August, however Flooding throughout the State delayed the Project until July of 2024.

The Report from Northern Vermont told of extensive Renovations of the Burke Mountain Tower being completed by Luke O'Brien of Vermont Forest, Parks and Recreation along with a seasonal employee in 2023. the Report mentions White Oak Treadways as specified by the Governing Body were Installed. They replaced all the steps, landings, and cab floor using white oak with galvanized hardware.
