

New Mexico Chapter 2024

As director of the NM Chapter I have been researching and documenting information on the lookouts throughout the state. I have also collected old photos of the sites. There are still five fire lookouts from the Mescalero Reservation I need to obtain photos of and place on the register. They are no longer in service but still standing. I have also given several presentations on the history and significance of fire lookouts. I recently started submitting lookout articles to several newspapers.
